

ASSEMBLY BILL

No. 588

Introduced by Assembly Members Goldberg and Koretz

February 16, 2005

An act to add Section 11093.4 to the Government Code, relating to statistical districts.

LEGISLATIVE COUNSEL'S DIGEST

AB 588, as introduced, Goldberg. Statistical districts: Hollywood.

Existing law requires any state agency or department that develops and maintains data and statistics on the municipal level, to make a separate breakdown of the San Fernando Valley, in the preparation and maintenance of any statistical analyses by city, and authorizes state agencies to require the City of Los Angeles to provide all necessary data in this regard. It provides that an alternate method may be used to determine the separate breakdown of the San Fernando Valley if a tax area code is used in the statistical analysis, and revises the description of the San Fernando Valley.

This bill would similarly require those state agencies or departments to make a separate breakdown of statistical data regarding the community of Hollywood, as described.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

The people of the State of California do enact as follows:
